Lesson 22 Crime Quiz Answers

One of my favorite TV shows is about detectives who investigate **unsolved** crimes. In the last episode, they were looking into a murder that had happened over ten years ago. The suspect who was **arrested** at the time was the victim's ex-boyfriend and **had** a long criminal record - but he **proved** his innocence with a watertight alibi.

The detectives then began to investigate the person who had found the girl's body and **reported** the crime. He had never **broken** the law, but a man who matched his description had been accused of an **attempted** kidnapping of another young woman around the same time.

The police called him in for questioning, and the alibi that he **provided** didn't match the one on record. They then **gathered** DNA evidence from the new suspect, and it proved that he had indeed **committed** the crime. It took more than ten years, but justice was finally served!
